

# QTEK Splice Kits

- ◆ Labour Saving Development ◆ Time Saving Device ◆
- ◆ Eliminates Awkward Handling Problems ◆ Increases Productivity ◆
- ◆ ESD Safe ◆ Ensures an accurate and reliable joint ◆

## General Information

QTEK Splice Tapes guarantee precise and secure connections of SMT component reels used in pick and place machines. To avoid unnecessary stoppages of pick and place machines QTEK Splice Tapes provide precise attachment of new and depleted component reels. The component reels become securely joined, and the cover tape can be peeled off continuously across the joint thus avoiding wastage of valuable components.

## QTEK Splice Clip And Tape

QTEK Splice Clip and Tape is an innovative easy to use, labour-saving development, which ensures an accurate and reliable connection when attaching new and used reels in the electronic manufacturing industry.

## Advantages of QTEK Splice Clip and Tape

The single operation combines both the clip and splice tape on the one piece, eliminating the awkward handling problems commonly associated with the splicing process. QTEK Splice Clip and Tape is guaranteed to increase a company's productivity, with excellent joints each and every time.

While QTEK Splice Clip and Tape is marginally more expensive than purchasing the splice tape and clip separately, the benefits are seen from the beginning in terms of less time spent splicing, increased productivity, and improved quality of spliced joints.

## QTEK Splice Station

The QTEK Splice Station is an all-in-one original solution to all your splicing needs.

## Advantages of the QTEK Splice Station

The QTEK Splice Station includes all the necessities to attach a new and depleted reel in the electronic manufacturing industry, in a solid portable trolley. The QTEK Splice Station, is easily assembled, its unique features include a secured QTEK Splice Tool with placement pins for increased accuracy, along with a handheld QTEK Splice scissors, and an axle to hold the new reel, all encompassed in a compact, mobile design. The QTEK Splice Station incorporates four compartments to store various sizes of splice tapes, and an ESD safe waste bucket. The entire station is

mounted on wheels for portability, which have brakes for increased safety. The trolley and all its various pieces are completely ESD safe.

## QTEK Combined Splice Clip and Tape Technical Information

	Din Value	ASTM Value
Supporting Base	Polyester Film	
Total Thickness	0.055mm	2.2Mil
Colour	Yellow or Blue	
Adhesive Strength	4N/cm	36oz/inch
Tensile Strength	40N/cm	23lbs/inch
Temperature Resistance	Up to 130°C (266°F)	

**For more information on either of these products, please contact QTEK directly at the details below.**
